

## ABSTRACT OF THE DISCLOSURE

5 A dispensing system and method for dispensing material onto a substrate. The  
dispensing system includes a frame, a support, coupled to the frame, that supports the  
substrate at a dispensing position in the dispensing system, and a dispensing head, coupled to  
the frame, that dispenses the material onto the substrate. The dispensing head includes a  
motor unit having a first motor coupled to an output drive mechanism, and a dispensing unit,  
removably coupled to the motor unit, having a material outlet from which the dispensing  
10 material is dispensed, the dispensing unit having a dispensing mechanism coupled to the  
material outlet and coupled to the output drive mechanism of the motor unit such that  
operation of the first motor causes the dispensing mechanism to dispense material through  
the outlet.
